

# Watch any good books lately?

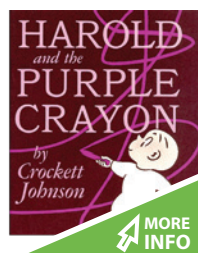

Do you utilize captions and description when you watch videos in class or at home? If not, you're missing out on a great way to get your students interested in reading and learning. Reading captions and listening to description build literacy and boost learning for everyone!

The DCMP collection contains a large selection of captioned and described children's literature titles. These are just a few of the recent additions available for free to registered DCMP members across the U.S.

All titles listed on this page are available with captions and description and can be **STREAMED INSTANTLY FROM THE DCMP WEBSITE OR DELIVERED TO YOU ON DVD.**
