

Native American Heritage Month

Find these and many more titles at www.dcmp.org.

Interesting Facts

One out of every 100 Americans is an Indian.

Over 62% of all the food the world eats today was originally developed by American Indians.

A far greater percentage of Indian people per capita serve in the United States military than any other race or ethnic group.

The Mayan Indian people developed the concept of 'zero' over 1,000 years before it was discovered in Europe or Arabia.
