DESCRIPTION

A Dr. Seuss classic about the ever-persistent Sam-I-am, who hounds and hopes to convince a nameless skeptic that green eggs and ham are a delicacy to be savored. Sam-I-am tries presenting his favorite meal in a variety of formats—in a car, on a goat—but to no avail. Will he convince his neighbor to try this peculiar dish, or is it a lost cause?

ACADEMIC STANDARDS

The Captioned Media Program’s (CMP) standards for this lesson guide are listed below. These standards were chosen by professional educators and are hyperlinked to the Mid-continent Research for Education and Learning (McREL) Web site so that you may specify benchmarks for your class in conjunction with this media.

Subject Area: LANGUAGE ARTS

- Standard: Uses reading skills and strategies to understand and interpret a variety of literary texts.
- Standard: Uses listening and speaking strategies for different purposes.

Subject Area: LIFE SKILLS

- Standard: Works well with diverse individuals and in diverse situations.
- Standard: Understands and applies the basic principles of presenting an argument.

Subject Area: MATH

- Standard: Uses a variety of strategies in the problem-solving process.
Subject Area: PHYSICAL EDUCATION
• Standard: Understands the social and personal responsibility associated with participation in physical activity.

INSTRUCTIONAL GOALS

1. To present a variety of methods to employ when persuading.
2. To analyze and evaluate persuasion techniques.
3. To develop rhyming ability by introducing new vocabulary and varied sound patterns. Specifically focus on short vowel sounds and their uses in the English language.
4. To examine authorial intent in relation to the theme of a production.
5. To expose students to vocabulary and textual organization.
6. To develop phonemic and phonetic awareness.

BACKGROUND

"I like nonsense, it wakes up the brain cells. Fantasy is a necessary ingredient in living; it's a way of looking at life through the wrong end of the telescope, which is what I do, and that enables you to laugh at life's realities." –Dr. Seuss

The history of children's literature is richly sprinkled with authors who have been able to catalyze a child's desire to read. Dr. Seuss is no exception. When the name "Dr. Seuss" is mentioned, one of the first books ever read as a child will likely come to mind.

Theodor Seuss Geisel, better known to the world as Dr. Seuss, was born in 1904 in Springfield, Massachusetts. His father and grandfather were brewmasters in the city. His mother often soothed her children to sleep by "chanting" rhymes remembered from her youth. Ted credited his mother with both his ability and desire to create the rhymes for which he became so well known.

Geisel left Springfield as a teenager to attend Dartmouth College, where he first used the pseudonym “Seuss” as contributor to the college’s humor magazine. This is the first record of the "Seuss" pseudonym, which was both Ted's middle name and his mother's maiden name.

After Dartmouth, he attended Oxford University and then returned to the United States to pursue a career as a cartoonist. Much of his early career activity as a cartoonist was dedicated to designing marketing campaigns for Standard Oil until his focus shifted during World War II. It was during the war that he began working as an editorial cartoonist developing a series of animated U.S. Army training films.

Back to Contents
Before his “big break” into children’s literature, the first book he published, And to Think I Saw It on Mulberry Street, was rejected over 30 times before it was printed by Vanguard Press in 1937. It was the printing and release of The Cat in the Hat in 1957 that made him the influential children’s book author that is thought of today. When Seuss died following years of illness on September 24, 1991, he had written and illustrated 44 children’s books. His books have been translated into more than 15 languages and over 200 million copies have been sold internationally.

BEFORE SHOWING

1. Discuss the potential consequences when making assumptions based on looks.
2. Explain that Green Eggs & Ham contains only 50 different words (48 of which are monosyllabic). What are some assumptions that can be made about the production with this type of vocabulary?
3. Discuss various forms of persuasion, explaining that those who have reasonable cause are better able to persuade others.
4. The meter of Green Eggs & Ham is a combination of trochaic and iambic tetrameter. Define these if appropriate.
5. Green Eggs & Ham is the fourth best-selling children's hardcover title of all time. What are some attributes of a best-selling book? What are essential elements a reader should expect from a best-selling book?
6. Explain and discuss food aversions and acceptance of new foods into a diet.

DURING SHOWING

1. View the media more than once, with one showing uninterrupted.
2. Pause the media after significant events, including any literary, mathematic, or theatrical elements, to address them specifically.
3. Give students time to write down everything mentioned.

AFTER SHOWING

Discussion Items and Questions

1. What is the reason Sam-I-am cannot get the man to eat green eggs and ham?
2. What are some ways that Sam-I-am tries to get the man to eat green eggs and ham?
3. What finally convinces the man to try the dish?
4. Why does Sam-I-am want the man to try this new food?
5. What are some problems that arise when appraising something by the way it looks rather than what it is?
6. Ask the students if they have ever been judged based on appearance. Discuss judgments they have made on others based on looks? What happens as a result?
7. In the beginning of the production, the Cat in the Hat mentions that his “...knowledge of eggs is tremendously wide.” Ask students to name some things they know plenty about. How did they learn about them?

8. The Cat in the Hat characterizes the egg as “the glorious fruit of the noble hen.” How can other foods be characterized?

9. Write another story where Sam-I-am has to convince someone else to eat his dish. Use words that are only one or two syllables. Develop new ways that this person could be persuaded to eat green eggs and ham.

Applications and Activities

1. Have students cut out a picture from a magazine or newspaper of something they didn't like when they were younger, but now they do. Analyze what changed.

2. Have the students make a list of things they have always liked. Open a discussion about whether this will ever change.

3. Read the newspaper to find a section about food (e.g., gourmet food section or a grocery store flyer). Each student could write a letter to the editor praising a food they like, or write another that suggests improvements for one they don't like.

4. Hold a newspaper scavenger hunt. Find as many of the words as possible that are in the book (preferably ones that rhyme).

5. Name a favorite food and think of words that rhyme with it. Place these words on the board. Generate a story using those words.

6. Make a list of the names and the colors of popular dishes. Choose one and draw a picture of it but change the colors. When sharing, have others guess what the dish is.

7. Make green eggs and ham by adding green food coloring to scrambled eggs. (Soy products are also available for substitution.)

8. Act out a short play or write a song attempting to persuade someone to try something he/she might not like in the beginning.

9. Give the students a copy of the Green Eggs & Ham Caption Script. Ask them to individually circle words they do not know, or provide a vocabulary list for review. Once this has been completed, break the students up into groups and ask them to help each other define the words. If the words are invented (such as “hummeled” and “frammed”), ask them to generate their own definitions based on context clues in the sentence. Share with the class.

READ CAPTIONS ACROSS AMERICA™
Reading is an integral part of a person’s life, but we all know reading fluently takes practice. The National Education Association’s (NEA) “Read Across America” is an event that calls for every child to celebrate reading on March 2, Dr. Seuss’s birthday.

But that’s not all! In 2006, the CMP partnered with the NEA to create Read Captions Across America™, the nation’s first reading event that emphasizes the importance of captioned media as a reading tool. We encourage teachers to support the CMP and its focus on increasing literacy by showing captioned media in their classrooms.

Join in on the fun by having your own Read Captions Across America™ event. To learn more, click on the links listed below.
