

FOOD CHAIN

INTRODUCTION

This guide is designed for teachers to use with the video program **Science Video Vocab: Food chain**. Viewers will learn all about the term food chain through video, photographs, graphics and animation. The questions and activities suggested in this guide will help you to assess your students' comprehension of the subject matter.

LEARNING OBJECTIVES

Students will be able to define the term food chain
Students will be able to pronounce and use the term food chain appropriately
Students will understand the term food chain as well as related concepts and principles
Students will be able to identify the various components of a food chain

QUESTIONS

What is food chain?
List the main components of a food chain.
How do food chains affect an ecosystem?
True or False: Fish are a part of every food chain.

CHALLENGE QUESTION

How does reducing the producers from a food chain affect other organisms in the food chain?

CLASSROOM OR INDIVIDUAL ACTIVITIES

Have your students choose one habitat. Using magazine cut-outs, drawn pictures, and terms have students create a poster that shows all the components in a food chain in that habitat.
