

# EXTINCT

## INTRODUCTION

This guide is designed for teachers to use with the video program **Science Video Vocab: Extinct**. Viewers will learn all about the word extinct through video, photographs, graphics and animation. The questions and activities suggested in this guide will help you to assess your students' comprehension of the subject matter.

## LEARNING OBJECTIVES

- Students will be able to define the word extinct
- Students will be able to pronounce and use the word extinct appropriately
- Students will understand the word extinct as well as related concepts and principles
- Students will be able to identify examples of extinct organisms

## QUESTIONS

- What does extinct mean?
- List examples of extinct animals and plants.
- True or False: Many species of plants and animals become extinct every year.

## CHALLENGE QUESTION

What can people do to help endangered species from becoming extinct?

## CLASSROOM OR INDIVIDUAL ACTIVITIES

Have your class create a poster. Using magazine cut-outs, drawn pictures, and words have students create an informational poster that educates people about an extinct plant or animal and why it will be missed.
