View Our Character Profiles

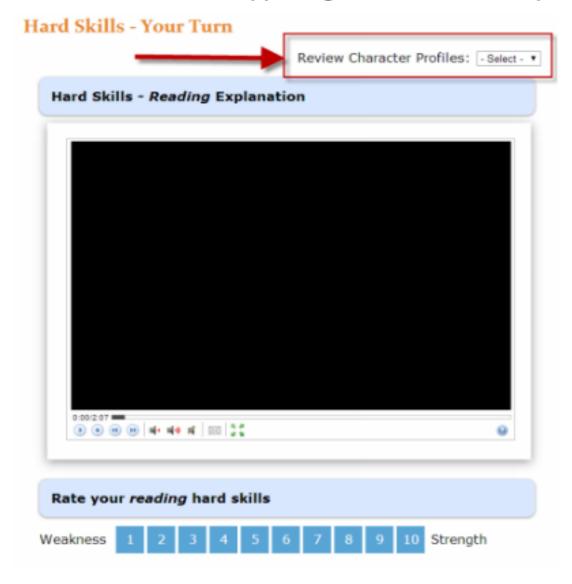

Map It will help you learn more about yourself by asking questions that help you think about who you are and what you want.

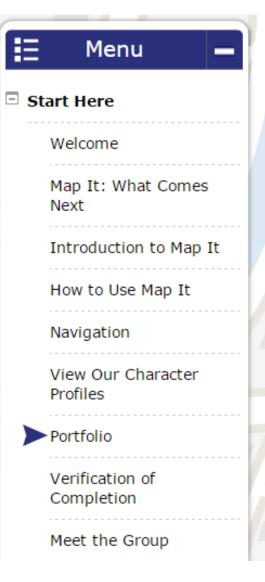

There are two ways for you to view the answers we gave in this training. In Sections 1, 2 and 3 you can:

1. Click on one of our pictures on the orange map.

2. Click on one of our names in the upper right hand corner of your screen.

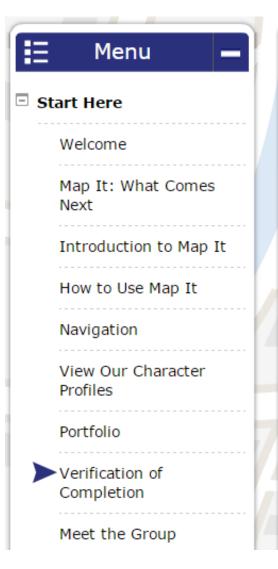

Portfolio

The questions in Map It that help you think about who you are and what you want are saved in a portfolio program called Mahara.

Your portfolio opens in a new tab in your browser.

You can share your Portfolio with your teachers, VR counselor, or parents. Your Portfolio can help you explain what you learned in Map It as you make plans for the future.

Verification of Completion

When you complete all three sections of the *Map It: What Comes Next* training, you can print or save a document to show you completed all the assignments and assessments. This document is called a <u>Verification of Completion</u>.

Meet the Group

Sam Allen

Brooke Hill

Joe Sanchez

Steven Marks

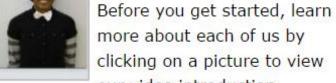

We took the Map It training when we were in school.

more about each of us by clicking on a picture to view our video introduction.
